

Alexa Built-In Service Agreement

“By choosing the option “I Agree”, your vehicle(s) will be made Alexa-capable.

If a driver of your vehicle registers to use Alexa, and signs in to their Amazon account, certain information provided by the driver (including, if the driver consents to the collection of static geolocation information, the static geolocation of the vehicle) will be submitted to Amazon in order for Amazon to be able to provide the Alexa service to your driver. Use of the Alexa service by your driver(s) is subject to the Alexa Terms of Use between Amazon and the driver.

If you choose not to check the “I Agree” box, embedded Alexa functionality will not be available to the drivers of your vehicle(s).”
